## GAME CONTROLS

## INTRODUCTION

To: Larry Lovage  
Scruemall Hall  
Walnut Log Community College

*Hello, Nephew! This is your uncle Larry; Larry Laffer. Remember me? You used to love hearing all about my romantic exploits back in the '80s and '90s.*

*When I heard you were going to college, I just had to write. You're coming of age, my boy, and I'm just the guy to give you a few pointers on life—and on making it with the babes.*

*In fact, I think they should let me teach at that college. I could give a course in Chickology— how to get chicks. Of course, I'd always grade on the curve...*

*I hear that hot dating show Swingles is on campus looking for contestants. This is the perfect chance to prove yourself! If you can show them you're a real swinger, they'll have to let you on the show. And that means more and better chances to score.*

*So look out, all you foxy chicks—Leisure Suit Larry is steppin' out again!*

*Uncle Larry*

### **The Larry Legacy**

Nephew, it's up to you to carry on the Leisure Suit Larry™ tradition. Sure, it's a whole new world out there, but it also includes lots of traditional ways to pay homage to your Uncle Larry. So get in there, boy, and make me proud!

### **Scoring With Babes**

There are lots of reasons for going to college: girls, booze, chicks, wild parties, babes, streaking, girls...did I mention girls?

I realize this is virgin territory for you, but get out there and start exploring. Eventually you'll meet some gorgeous babes you'll definitely want to know better.

You'll get your chance to impress them by engaging in witty conversation, and doing them favors—which usually involves some “game playing,” if you know what I mean. They'll expect you to perform some task or deliver some hard-to-get item to prove your devotion.

You don't have to do it all at once. You can talk to a girl, maybe play a game with her, then go off and do something else for a while and meet up with her again later. Take it from your Uncle Larry: sometimes it helps to play it cool.

### ***Taking Things to the Next Level***

After you've impressed a girl enough times with talk and action, she'll be ready to get to know you a bit more "intimately." Good luck!

Oh, once in a while you might end up in a pretty ticklish situation. But even if it doesn't work out exactly as planned, she's likely to leave you a little token of her affection—an intimate article of clothing or a personal item—to remember her by.

Each time you collect tokens of affection from two new girls, you can go to the Swingles set and complete a challenge to advance to the next level.

New levels offer more activities and open up more areas to explore—and best of all, reveal more hot babes to pursue! Sometimes girls who would barely talk to you before are now ready to be much friendlier.

Collect enough tokens of affection, and you'll reach the highest level of stud-dom and finally get to be a Swingles contestant—with a chance to make it with one of the three hottest girls on campus. This is where all your hard work finally pays off, big time!

## **WANDER MODE**

There are two basic ways to behave in the world. There's **Wander Mode**, where you explore everything your world has to offer. And there's **Game Mode**, where you concentrate on performing a specific task—whether it's executing a successful cross-campus streak, or getting through a semi-intelligent conversation with a buxom babe.

One world, two different ways to experience it—who says we Larrys aren't profound? I'd say we're pretty "broadminded."

### ***Feeling Your Way Around***

If you're going to make it in the world, you need to know all the right moves. There's plenty to see. You can examine lots of cool stuff, and engage in conversation with just about anyone on campus. And to help get you started, I'll stop by from time to time to give you pointers.

By the way, I know it's a tough skill to learn, but apparently chicks dig a guy who knows how to listen. So go ahead and eavesdrop on the people around you. They might give you ideas for useful or valuable things to do.

### **Larry's Patented Moves**

- ♥ Use the **arrow keys** to move (or the **W**, **A**, **S**, and **D** keys).
- ♥ Use the **left shift** key to toggle between walking and running.
- ♥ Move your **mouse** to change your perspective, or the **4**, **5**, **6**, and **8** keys on your numeric keypad.
- ♥ Press **C** to toggle to and from first-person perspective.

When you approach a person or object you can interact with, the name of the person or object will appear.

When the **Examine** icon appears, press **Spacebar** or the **right mouse button** to examine the person or item.

When an **Activate** icon appears, you can either press **Enter** or the **left mouse button** to activate the person or item.

It's also worthwhile to press **Enter** on named objects even if the **Activate** icon doesn't appear—you never know what you might discover!

*There are various types of Activate icons:*

The **Speech** icon means you can talk with this person.

The **Lips** icon means you can interact with a gorgeous babe.

The **Door** icon means you can go into a new area.

The **Game** icon means this person will let you play a game for cash or confidence.

The **Price Tag** icon means you can either buy things (like booze) or sell things.

Instructions will appear on-screen before each game to clue you in on what's needed. Press **Enter** to close the instruction window and continue.

Press **Esc** to see the **Pause Menu**, with various program options. If you're unsure where to go, press the **left Alt** key to bring up your **Black Book**. (See *Larry's Little Black Book* on p.8.)

### ***You the Man, Larry!***

My boy, nothing's more essential to players like us than confidence. It's important to keep yours high. When you give off a certain air, people will notice and treat you better. And sometimes closed doors will open for a guy who knows he's hot stuff!

Having successful conversations with the ladies, or posing well (see ***Strutting Your Stuff*** below), will raise your confidence. And if you really need to "get it up," find a "confidence game" and win it for a big boost. (See ***Whack-a-Pole*** on p. 13, for example.) Larry's face and the confidence meter indicate your confidence level.

### ***Strutting Your Stuff***

Here's a little secret: One way to give your confidence a boost is to pose in front of the right people. So go ahead, flash 'em your moves and see what happens.

But don't start something you can't finish. If you botch a pose, you'll end up looking like a dope and losing some of that trademark Larry confidence.

When you approach someone and the **Pose** icon appears, press **Backspace** to begin posing for that person. Tap the indicated arrows in sequence repeatedly to fill the pose meter before time runs out.

### **Larry's Little Black Book**

If you ever find yourself lost, your **Black Book** will tell you what you need to know. It'll help you keep track of all the foxes you've been dating: where they are, what they need, and if they left you a token of affection. You can check it all out here, under their names.

Some of the stuff you find out in the world will also be listed in your Black Book's Inventory and can be used later—like a cool zoom lens for your camera, so you can take those more intimate shots.

Press the **left Alt** key to bring up the Black Book, or select it from the **Pause Menu**. Use the **left arrow** or the **right arrow** key to move through the pages. Press **Esc** to close the Black Book.

### **Money, Money, Honey**

At college, you'll need money for some things—like fancy threads, bribes for bouncers, and the occasional beverage.

And sometimes you'll need money to impress the babes. Some of them don't come cheap, if you know what I mean.

If you find yourself low on dough, you can pick some up by playing certain mini-games. And keep exploring—you might find some stray cash lying around.

The **Money Meter** shows how many bucks you have, and the **Dildometer** shows how many secret tokens you've collected (see **Token Victories** on page 10 for more on secret tokens). Press the **right Alt** key to view them.

### **Laying Out Some Cash**

There are bars, stores, and vending machines around town that let you stock up on essential college stuff, like fancy suits and booze.

Some girls expect a guy to be nicely dressed before they rip his clothes off. Go figure! Anyway, there may come a time when you need to change your outfit, and that means buying some new threads.

Outfits can be purchased at vending machines, among other places. And there are some really groovy accessories available too.

Clothes you've bought will be recorded in the **Black Book**. To change clothes, open the Black Book and go to the **Outfits** page. Select the outfit you want, and you'll automatically put it on.

### ***Drunken Streaking 101***

Hey, everybody knows we Larrys can hold our liquor. We just get a little rambunctious sometimes, that's all. If you've got a good buzz going, you might find that some things are a little harder to do. And if you let yourself get totally schnockered, you may feel the urge to take off all your clothes and start streaking.

And that's fine, as long as you don't get caught. For some reason, campus security and bar bouncers don't like to see well-endowed guys like us running around naked. If you can elude security long enough while running past (and shocking) as many people as possible, you'll wake up feeling refreshed and more confident. But if you get caught, you'll lose some precious confidence and have one helluva hangover!

The Booze-ometer appears automatically when you consume alcohol and shows how much you've imbibed. Use the **arrow keys** to streak. Streak past as many people as possible while avoiding capture by guards.

### ***Candid Shots***

With all the work some babes go through to doll themselves up, you'd think taking long, admiring looks at them would be considered socially acceptable behavior. Alas, no.

Fortunately, modern science has provided a permissible way for you to gaze as long as you want, capture the moment forever, and even make a little money on the side.

I speak, of course, of the photographic arts. You've got a camera for taking photos that you can store in your personal album, or sell for cash to interested buyers.

Taking photos is a great way to get to know people. Sometimes chicks will even start posing for you—or more!

- ♥ Press the **P** key or \* on the number pad to activate the view finder.
- ♥ Press **Enter** to take pictures. If you have the Super Camera Lens, press **+** and **-** or use the **mouse wheel** to zoom in and out. Lights from red to green above the view finder tell you when better shots are appearing. (Better pictures bring more money on the open market.)
- ♥ Press the **P** key or \* on the number pad to deactivate the view finder.

Some people will buy pictures from you. You'll see a **Roll of Film** icon when you approach them. Press **Enter** to show them your shots.

When your roll of pictures appears, use the **arrow keys** to choose one of them. Press **Enter** to zoom in and evaluate what it's worth, **Enter** to sell it, and **Spacebar** to save a copy to your personal gallery if you want. Press **Exit** to end the transaction. You can view your temporary photo collection and permanent gallery in your Black Book.

### ***Token Victories***

Nephew, life is like a woman: full of surprises! As you explore your world, you'll find lots of secret tokens hidden all over the place. It pays to explore everywhere.

Sometimes secret tokens will buy you access to special, hot features in your world. They can also get you out of a jam—like a game you can't seem to win. (See ***Wimping Out*** on p. 14.) So start hunting!

When you're near an object that can be explored but has no **Activate** icon, try activating it anyway by pressing **Enter** to see if it's got a token. The **Dildometer** shows how many secret tokens you have. Press the **right Alt** key to view it.

## GAME MODE

Wandering around college aimlessly is fine, but sometimes you've got to buckle down and concentrate—no, not on your studies, on successfully playing a mini-game!

This is how you impress chicks, improve your confidence, or earn a little spending dough. You'll encounter a wide variety of situations out there, but the following basic skills should help you deal with most of them:

### Chat

Every guy knows women like to talk, and just love a dude who'll listen...hey, pay attention!

When you're talking with a girl, you've gotta watch what you say, and avoid all the little indiscretions that can sink a conversation. If you impress a girl enough times with your smooth discourse, you'll be well on your way to scoring!

Use **up** and **down arrow** keys (or **W** and **S** keys) to navigate the sperm. Touching green items increases your heart score, other items lower it, and some are just for fun! Fill the Heart meter to win.

### Quarters

**Quarters** is a time-honored college drinking game. If you can toss a quarter into a glass, your opponent takes a drink. If she lands a quarter in the glass, you drink. The first one to get sloshed loses. A smooth, straight, even stroke back and forth is very effective...oh, and it's also the best way to win at Quarters!

To toss a quarter, move your **mouse** or **joystick** smoothly back and forth once, or press the **up** and **down arrow** keys (or **W** and **S** keys). Each time you or your opponent has to take a drink, the drinker's Booze-ometer fills higher. The first one to fill up loses.

### **Slaps**

If a woman invites you to play a game of slaps, I'd definitely take her up on it. Hey, it might be the only physical contact you'll get for quite a while!

When you're the slapper, get charged up, then attack! You can also try faking a slap by just twitching your hands. If she pulls her hands away too soon, you win that round.

When it's her turn, she may fake it too—an experience not wholly unfamiliar to you. So don't pull out too soon, because Slaps is like love, and love is like a money market account: substantial penalty for early withdrawal!

When you're the slapper, tap the **Spacebar** repeatedly to build up your charge. Press **Shift** to fake a slap. Press **Enter** to deliver a slap.

When you're the slappee, press **Enter** to withdraw your hands and avoid a slap. The Slap Meters show each person's score. The player whose meter fills up first loses.

### **Bartending**

Someone might ask you to pass out useful stuff like fliers, or maybe monkey chow. Hey, anything for a few extra bucks, or to impress a babe.

Bartending works just like a swinger's love life: you run around trying to please as many "customers" as possible, do some damage control when they try to throw it back in your face, and make sure you're done before they catch up with you!

Use the **arrow keys** to move to the item you're passing out. Press **Enter** to toss items to oncoming patrons before they reach your end of the aisle. Use the **arrow keys** to walk over and retrieve any items they throw back, before they reach your end of the aisle. Pass out the indicated number of items to win the round.

### **Rhythm**

Ladies love a guy who knows how to handle himself on the dance floor—or the trampoline. (Yes, it reminds me of my wild disco nights: “Ah, ah, ah, ah, stayin’ alive, stayin’ alive!”) And hey, you can be a sensitive, *New Age* kind of guy and let the girl lead, right?

Your partner will call out a series of keystrokes. At the right moment as shown on the direction bar, press the indicated keys in order and in rhythm.

### **Whack-a-Mole**

In some situations, Nephew, it pays to be good with your hands.

It also helps in certain mini-games, where you need to make the right moves quickly. Whether it’s mixing the perfect drink or giving a naughty girl a spanking, accuracy and speed go hand in hand.

**Arrow** keys will briefly flash on the screen in random patterns. Press each corresponding key on your keyboard before it disappears.

### **Avoidance**

Sometimes when you try to do someone a favor, other people try to ruin your fun—like bouncers, security guards, and government agents. That’s when you need to be light on your feet.

Use the **arrow** keys to run and avoid your pursuers. Touch all glowing objects that appear on your way to pick them up, and get to the indicated exit before time runs out.

### **Whack-a-Pole**

Even the best lover needs some...uh...“alone time” once in a while. An occasional bit of “personal stroking” can do wonders for your confidence—and your technique. And if you’re ever really low on cash, you can put those skills to profitable use at the sperm bank! Use the **up** and **down arrow** keys (or the **W** and **S** keys) to move the paddles up and down and keep the ball in play.

### **Water Sports**

Nephew, there may be plenty of better things to drink out there, but believe me, water is your friend. Can you say “Wet T-shirt Contest”?

I knew that you could. Chicks seem to love this game. Developing careful aim can also be useful in other situations—like when you really need to pee in an expensive art gallery! Use the **mouse** or **arrow keys** to aim your water gun (or other spraying device). Press **Enter** to fire. Soak as many valid targets as possible before time, and your supply of liquid, run out.

### **Photos**

This is just like taking photos in **Wander Mode**, except that now you’ve got a specific task to complete—and a time limit. Also, while you may get a chance to capture some fabulous babes in fabulous poses, at other times your subjects may not be the most “photogenic.” Always try to get the best shots possible, and watch out for interruptions!

Use the **arrow keys** to find and follow your subject. Use the **mouse** or **numeric keypad** to change your perspective. The lights from red to green above the view finder indicate the quality of the shot (green is best). Press **Enter** to snap a picture. Get as many good shots as you can before time runs out. Your score for each shot will be displayed. Try to get enough good shots to meet or beat the required minimum score.

### **Pose**

This is a little different from posing in **Wander Mode**. Now you’re posing with a purpose! You’ve gotta grab something, deliver it to someone, pose, then do it all over again, and again and again, before time runs out. Aagh...the things we do for love!

Use the **arrow keys** to move to the indicated item and touch it, then move near a bystander and press **Enter**. Repeat the process for the indicated number of people before the timer reaches 0.

### **Wimping Out**

Even experienced swingers sometimes have...um...performance problems. No, no, I’m talking about when you just can’t seem to win a particular mini-game.

If this should ever happen to you, it’s nothing to be ashamed of. You can use secret tokens to complete the mini-game and advance. (You *have* been collecting secret tokens, right?)

Select **Wimp Out?** from the **Pause Menu** to bypass a game. You’ll be told how many secret tokens it will cost you. If you keep losing at a game, you’ll be asked if you’d like the program to make it easier.

If you still keep losing, you’ll be invited to wimp out, but it will cost you some secret tokens. You can also just quit the mini-game and try again later.

## CHARACTERS

### ***Fabulous Babes***

Take it from your Uncle Larry, this campus and the surrounding town are full of hotties of every description. There are more gorgeous girls here than you can “shake a stick” at.

Yes, there are girls for every taste—and every fantasy! But I’m not going to describe them to you now, because I want you to have the distinct pleasure of meeting each of them personally. You’ll thank me later.

#### ***Uma Yasmine***

But one girl you should know about now is Uma Yasmine, the host of that Swingles dating show that’s filming on campus. If you can impress her enough times with proof of your various conquests, she just might let you on the show. (See ***Taking Things to the Next Level*** on p. 5 for details.)

Besides interacting with plenty of gorgeous, “up-front” ladies, you’ll meet a lot of distractions—I mean, other people—along the way:

#### ***Assistant Dean Abrahamson***

What a hard-ass! This career politician has his eye on the dean’s chair, and he’s not about to let a swingin’ stud like you stand in his way. I’m sure you’ll find some creative ways of sticking it to him!

#### ***Fred Beazer***

This oaf is what passes for security at Walnut Log. Whether you’re making out in the quad or just letting off steam with some healthy drunken streaking, you can always count on old Beazer to try and ruin your fun.

***The Commissar***

You wouldn't know it to look at him, but the Commissar's a pretty resourceful guy. He's always got some big project going—and in a pinch, he just might be able to get you what you need.

***Russell***

Who the hell is this guy? And why does everybody love him?

***The Porn Fairy***

Sorry, Nephew, but this is the closest thing you'll ever have to a fairy godmother. I know he's not much to look at, but the little guy might be helpful in getting you out of a tight scrape now and then.

***Leopold***

Your attempts to impress one lady or another may bring you into contact with this resident of the school's biology lab. Who knows, you may find that you two have more in common than you realize...

And besides these characters, you'll also meet a wide assortment of laid-back students, apathetic professors, full-of-themselves frat rats, surly townspeople, brutish government agents, dopey TV stagehands, barflies, hookers, pimps, and jokers of all kinds.  
Welcome to your world!

## ***BROADENING YOUR HORIZONS***

As you advance to higher levels of studliness, you'll gain new abilities, and new surprises will be revealed. For instance, higher levels may give you the chance to play familiar games with a new dimension: the loser of each round has to strip!

You can use your Black Book to revisit a girl you've already gotten to know—just select her name to see your notes on your past encounters, and pick the one you want to relive.

And even after you've won at Swingles, you can keep exploring. Who knows, there may be a hot babe you haven't scored with yet, or some campus prank you haven't pulled. There's a big beautiful world out there! Yessir, a big beautiful world.

### ***Some Final Words of Wisdom From Your Uncle Larry***

My boy, you're bound to experience a lot of disappointment and heartache along the way. You'll want to score in the worst way possible, and often that's just how you will.

But if you just keep sticking it out there, I guarantee you'll finally succeed. So do your Uncle Larry proud, and remember what I always say: "Good lovers are made, not born. If they're really good, they can be made more than once a night."

Kiss the girls and make 'em cry, Nephew!

*Uncle Larry*

Any use, reproduction, or redistribution of the Program not in accordance with the terms of the License Agreement is expressly prohibited.

### **END USER LICENSE AGREEMENT**

- 1. Limited Use License.** Sierra Entertainment, Inc. ("Sierra") hereby grants, and by installing the Program you thereby accept, a limited, non-exclusive license and right to install and use one (1) copy of the Program for your use on a home, business, or portable computer.
- 2. - 3. Responsibilities of End User.**
  - A. Subject to the Grant of License hereinabove, you may not, in whole or in part, copy, photocopy, reproduce, sublicense, translate, reverse engineer, derive source code, modify, disassemble, decompile, create a source code equivalent, create derivative works based on the Program, or remove any proprietary notices or labels on the Program, or allow others to do so, without the prior consent, in writing, of Sierra.
  - B. The Program is licensed to you as a single product. Its component parts may not be separated for use on more than one computer.
  - C. You are entitled to use the Program for your own use, but you are not entitled to:

All such connections, whether created by the Program or by other tools and utilities, may only be made through methods and means expressly approved by Sierra. Under no circumstances may you connect, or create tools that allow you to connect to the Hosting Service's private binary interface or interfaces other than those explicitly provided by Sierra for public use.

- 4. Program Transfer.** You may permanently transfer all of your rights under this License Agreement, provided the recipient agrees to the terms of this License Agreement and you agree to remove the Program and any New Materials from your home, business, or portable computer.
- 5. Termination.** This License Agreement is effective until terminated. You may terminate the License Agreement at any time by destroying the Program and any New Materials. - 6. Export Controls.** The Program may not be re-exported, downloaded, or otherwise exported into (or to a national or resident of) any country to which the U.S. has embargoed goods, or to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Commerce Department's Table of Denial Orders. By installing the Program, you are agreeing to the foregoing, and you are representing and warranting that you are not located in, under the control of, or a national or resident of any such country or on any such list.
- 7. Customer Service/Technical Support.** "Customer Service" as used herein may be provided to you by Sierra representatives by telephone and/or by electronic message (e-mail). "Technical Support" may be provided to you by Sierra by telephone, electronic message (e-mail), or by posting of information related to known technical support issues on a web site. ANY INTERRUPTIONS OF SERVICE ON THE HOSTING SERVICE OR OTHER ON-LINE PROVIDER AUTHORIZED BY SIERRA INCLUDING, BUT NOT LIMITED TO, ISP DISRUPTIONS, SOFTWARE OR HARDWARE FAILURES, OR ANY OTHER EVENT WHICH MAY RESULT IN A LOSS OF DATA OR DISRUPTION OF SERVICE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations may not apply.

**10. Equitable Remedies.** You hereby agree that Sierra would be irreparably damaged if the terms of this License Agreement were not specifically enforced, and therefore you agree that Sierra shall be entitled, without bond, other security, or proof of damages, to appropriate equitable remedies with respect to breaches of this License Agreement, in addition to such other remedies as Sierra may otherwise have available to it under applicable laws. **11. Limitations on License.** Nothing in this License Agreement shall preclude you from making or authorizing the making of another copy or adaptation of the Program provided, however, that (1) such new copy or adaptation is created as an essential step in your utilization of the Program in accordance with the terms of this License Agreement and for NO OTHER PURPOSE; or (2) such new copy or adaptation is for archival purposes ONLY and all archival copies are destroyed in the event of your Transfer of the Program, the Termination of this Agreement, or other circumstances under which your continued use of the Program ceases to be rightful.

**12. Miscellaneous.** This License Agreement shall be deemed to have been made and executed in the State of California, and any dispute arising hereunder shall be resolved in accordance with the law of California. You agree that any claim asserted in any legal proceeding by one of the parties against the other shall be commenced and maintained in any state or federal court located in the State of California, County of Los Angeles, having subject matter jurisdiction with respect to the dispute between the parties. This License Agreement may be amended, altered, or modified only by an instrument in writing, specifying such amendment, alteration, or modification, executed by both parties. In the event that any provision of this License Agreement shall be held by a court or other tribunal of competent jurisdiction to be unenforceable, such provision will be enforced to the maximum extent permissible, and the remaining portions of this License Agreement shall remain in full force and effect. This License Agreement constitutes and contains the entire agreement between the parties with respect to the subject matter hereof and supersedes any prior oral or written agreements.

I hereby acknowledge that I have read and understand the foregoing License Agreement and agree that the action of installing the Program is an acknowledgment of my agreement to be bound by the terms and conditions of the License Agreement contained herein. I also acknowledge and agree that this License Agreement is the complete and exclusive statement of the agreement between Sierra and me and that the License Agreement supersedes any prior or contemporaneous agreement, either oral or written, and any other communications between Sierra and me.
