## **Instructions**

**Time:** 30secs

### **Microsoft Windows Vista**

#### **Setting Your Desktop Background**

##### **Method A**

Go to:  
The wallpaper file.  
Right click,  
Set as Desktop Background.

**Tip:** Right click on the desktop background, then select Personalize, to go straight to Control Panel, Personalization.

##### **Method B**

Go to:  
Start,  
Control Panel,  
Personalization,  
Desktop Background,  
Browse...  
Browse to the image filename suffixed with your screen resolution.  
Click the filename,  
Select OK.

### **Microsoft Windows XP / 2003 Server / 98 / NT / etc**

Right click on the desktop background.  
Select Properties.  
Browse...  
Browse to the image filename suffixed with your screen resolution.  
Click the filename,  
Select OK.

#### ***Did You Know?***

#### **Finding Your Screen Resolution**

Go to:

Start,

Control Panel,

Personalization,

Display Settings.

In the lower part of the window, under the Resolution slider, there should be two numbers. They are in the format: xxxx by yyyy pixels, for example 1024 by 768 pixels. This is your screen resolution.

*Tip:* You can also set your a background image from:  
Microsoft Internet Explorer, simply right click, Set as Background, and from,  
Mozilla Firefox, simply right click, Set as Desktop Background...

## **Uninstall**

To uninstall your new background image, simply follow the procedure described above and select a different image as your background, from the Browse window, for instance Windows Wallpapers.
